Subject: perchlorate in AZ

Jose, Kevin: Somebody routed me an article (probably you Kevin) that perchlorate has shown up in CAP water. A sample taken in August came up w/4.1 ppb. That's not surprising, but I wanted to make sure you two knew. Actually, I might as well retrieve the article and just show you (http://www.lvrj.com/lvrj_home/1998/Sep-27-Sun-1998/news/8297020.html) -Ben
